

Setup instructions Roman Tent

Dimensions of tent: Height: 2.20 m
Width: 2.60 m
Length: 2.90 m
Wall height: 1.00 m

Material of the stakes:

Straight natural grown or milled log

Poles Ø 60 cm: 3 x 2.90 m
 2 x 2.20 m
 4 x 1.00 m

For the setup you will need two to three persons.

1. Spread out the Roman tent on a big enough, even and clean surface
2. Fix the cover with the pegs to the ground.
3. Since all the stakes are inside the Roman tent start with the middle stake. Lift it using the vertical stakes.
4. Now a second person keeps the pole straight until the wall stakes are erected.
5. Next fix the four corners of the tent with pegs and after that fix the rest of the Roman tent.
6. Adjust the the poles to tighten the cover. Optionally use wood pieces to even out the surface.

Notice:

After using the tent please dry it – only pack when totally dry.
With longer storage wrap the tent carefully because mice love tents.
